While we believe that good work has been done in most of our schools during the past year, we wish to call the attention of parents to two difficulties which hinder the success of our scholars and teachers. An examination of the proper column in the statistical report will show a too small average attendance when compared

with the whole number of scholars. An inquiry into the discipline in some of our schools will reveal a loose, unsatisfactory condition. These matters cannot be rightly adjusted without the kindly and hearty co-operation of parents with the teachers and school board. Our schools are gradually becoming better graded, the standard of scholarship is growing higher, and now let us avail ourselves of the golden opportunity by keeping our children in school as constantly as possible.

Continued employment is the highest praise we can give a teacher, though we are at times obliged to make changes for the general good, when no serious fault can be found with the teacher.

Roll of honor and statistical table appended give all general facts relative to the different schools.

Respectfully submitted,

FRED L. GOULD,
CARRIE E. REED,
SPEDIE A. NEWTON,
} Board of Education.

Having examined the financial reports of School Treasurer and School Board for the year ending Feb. 15, 1906, I find the same correct with proper vouchers.

GEORGE E. WALKER, Auditor.
